

Air Assist Clutch Systems

A Cablecraft booster kit can be used on:

- Clutch cable or Linkage rod systems
- Truck or Bus clutch's
- Push or Pull installations

Typical customers who are looking for this type of product include:

- Drivers who have changed from a lighter clutch pedal vehicle.
- Fleets where OH & S is strongly regarded.
- Motor homes owners.
- Drivers with an injured left leg (often caused by a vehicle with a heavy clutch pedal).

TGA Cablemakers can also install a complete system if required.
